**FOR IMMEDIATE RELEASE**

**JEMTEC HAS REACHED 3 YEAR AGREEMENT TO PROVIDE  
GPS & RF MONITORING SERVICES**

December 11, 2007—JEMTEC (TSX-V:JTC) (“JEMTEC” or the “Company”), the leading provider of integrated technology systems for community based corrections in Canada, has reached agreement to provide a consortium of Canadian Corrections Departments with a combination of GPS and Radio Frequency (RF) technology as well as monitoring services. The agreement has a term of (3) three years and management expects it will generate in excess of \$750,000 in revenues over the term.

JEMTEC has provided GPS technology in Canada since 2003 and RF monitoring services since 1987. The Company’s technology and services have been used to monitor over 20,000 community based corrections clients in that time. The Company provides a full range of offender management tools including Biometrics such as Voice Verification, offender reporting Kiosks, as well as Radio Frequency, Passive and Active GPS and has two Canadian 24/7 event monitoring locations.

Established in 1981, JEMTEC holds exclusive rights for a variety of offender accountability solutions/technologies and is the leading provider of community offender monitoring solutions to Canadian Corrections. The common shares of JEMTEC trade through the facilities of the TSX-Venture Exchange under the symbol JTC.
